

# Knowledge Management Support

For several decades the world's best-known forecasters of societal change have predicted the emergence of a new economy in which brainpower, not machine power, is the critical resource. But the future has already turned into the present, and the era of knowledge has arrived

Knowledge Management institutionalises individual knowledge and empowers management to handle critical situations on time

How as a responsible business officer, you enhance the value of the organisation ? – Pantomath's Knowledge Management Support System Will Assist You ...
